

Curry Rivel in Bloom

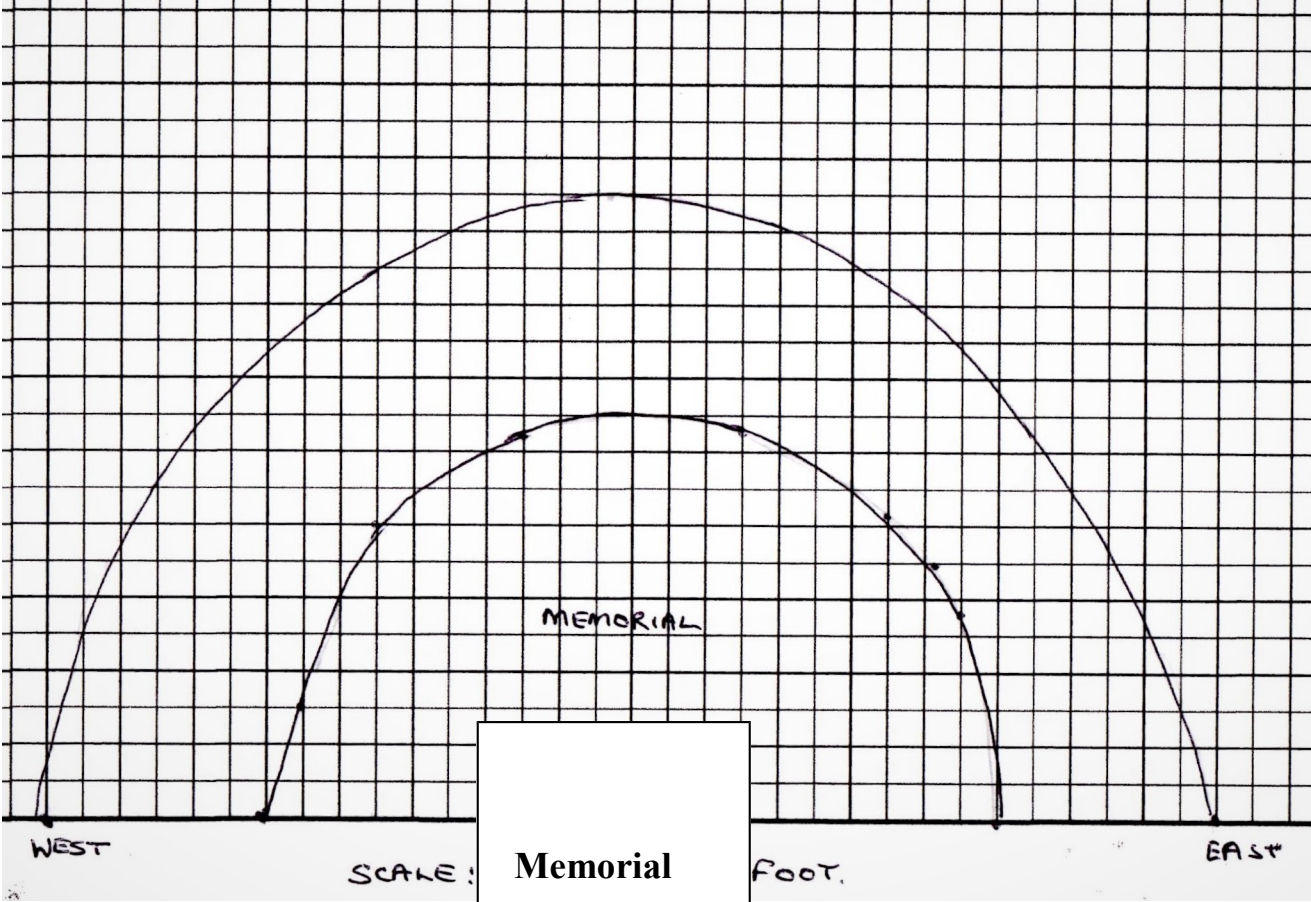

War Memorial Design Competition

The War Memorial at the Bell crossroads is a focal point in the village, but the garden around it has not been tended for some time and the shrubs have become very overgrown. It is time for a fresh start with a new design for the garden, which can, but need not, include the existing trees and shrubs in a very reduced form. Work is planned to start this autumn and money is available for the project once a suitable design has been agreed by the Parish Council.

We invite you to submit your design, on, or using the dimensions shown on, the plan below, which can be downloaded You will need to include a detailed planting plan to go with your design. You may find it helpful to talk to the experts at either Kelways or Greenshutters, who will be happy to give advice.

The closing date for entries is September 30th 2016. For any further information please contact any member of the Curry Rivel Britain in Bloom group, or ring 01458250091.
